#### **1.0** How to register ENVI-met BUSINESS

Thank you for buying the ENVI-met Business License.

With your order, you receive a license key:

#### **BUSINESS.LICX**

This key will upgrade your existing ENVI-met installation to the Business Version.

The ENVI-met Business key has a fixed license runtime. After the run-time has passed, ENVI-met automatically falls back to the LITE Version and needs to be upgraded with a new Business license key.

The key is for you personally and must not be forwarded to any other person!

The activation is linked to the specific computer and cannot be copied to another computer afterwards.

Activate the license for each computer individually by carrying out the following steps.

## **1.3** License managing

After you bought an ENVI-met Business License, you will get a validation email. Here, you can find your personal User Key and the license file (\*.LICX)

Make sure to save them.
